THIS MONTH'S NEWS

Date Change

July Board meeting will be held Tuesday July 6 at 7 pm.
There needed to be a change in date as Monday was an
observed holiday.

Rimrock Archery Big Shoot Planned, August 7

Redmond Rod and Gun Club is partnering with 3 Rivers
Archery and Oregon Department of Fish and Wildlife (ODFW)
to host a 3D tournament at our Rimrock Archery discipline
August 7 starting at 6 am.

3 Rivers Archery will provide the tournament set up experience
and we will provide the much sought after natural shooting
areas. This will be a joint venture under the 3 Rivers "Dusty
Trail" banner.

Using 3D animals from both clubs and ODFW will result in
a 40 target course. Our current course and some borrowed
additional space will give shooters a test of skills. RRGc is at
work seeking a BLM permit to expand on the land adjoining
our club as well for next year.

Contact Archery Director, Denny Morris, for questions or
offers to volunteer.

Volunteer Board Members

Board Members are like many
who give time and often donate
to the club. Chosen by our
membership we serve the club
in a multiple of ways. Many of
us are Directors overseeing the
actual site and leading teams of
individuals to create shooting
venues. Other board members
work from home or the range
but are not actually assigned to
one discipline.

We each report to the board
at our monthly first full week

Volunteers are always needed!

Both indoor and outdoor volunteers are appreciated. Please contact us for more information.

RENOVATIONS & ADDITIONS NEEDED

Sure there can be additional bays built at pistol, extended ranges, more trap fields, numerous improvements around the sites can occur, so why doesn't it happen right now? Well there is a well-defined plan for each area and members of the disciplines know what is needed. They are looking for partners to sponsor the pistol expansion, parking lot renewals and general club improvements for shooters to enjoy. See the office staffs and they will put you in contact with the right person. Your business or personal contributions will be permanently recognized using signage at a shooting station. To make changes quickly – volunteer or donate.

Thanks!

meeting. Discussions about the club, our visions, finances and personnel that have been brought forward by club members are addressed.

Being a board member is rewarding and offers challenges. There is sometimes a difference of opinion, as within any governance body, we work together to find positive pathways forward. It is indeed difficult to overcome rumors especially unfounded ones. Our task is to give well documented answers to our members and create a plan for the club's future.

If you see something that needs attention bring it to your discipline director or any board member. If you know something is not quite as it seems help us to move forward by getting the facts. Hear something that does not sound right seek a source of solid information. Most of all become involved in the club by finding solutions much like your board strives to do each day.

Ladies' Nite
